

# Evidence series 02

Individual public evidence records

## This bulk compilation has been retired

This series contains 74 individual, selectively redacted evidence PDFs. They remain available from the series page and preserve better legibility, privacy control and crawlability than one very large combined file.

**Use the individual evidence links on the public series page. Invoice numbers, document references, serials, addresses, routes and payment details are fully blocked in those records.**

No evidence has been removed. Only the oversized duplicate compilation has been withdrawn; the underlying individual first-hand records remain public.
